

“IEEE Students Section”

For

IEEE IEMCON 2018 - The 9th International Annual IEEE Annual Information Technology, Electronics & Mobile Communication Conference 1st - 3rd November, 2018 - Vancouver, BC
<http://ieee-iemcon.org/>

Chaired and Organized by:

Morteza Modarresi Asem, Department of Biomedical Engineering, Medical Sciences University, Tehran, Iran. (Modaresi.bme@gmail.com)

Scope:

Every year, many conferences are held in various contexts around the world. One of the most prestigious engineering conferences in the world is the IEEE IEMCON Conferencing, which has been held for several years by the IEEE Vancouver section in Canada. Some years experiences of the conference showed that most of specialists and experts in various fields of engineering are planning and submission their papers in the IEEE IEMCON conference. On the other hand, the management of the conference, in order to maintain its quality, has gathered well-known and highly experienced professors to review papers as peer-reviewed and hold advanced scientific workshops. So, the same strategy has led to the renown and enhancement of the scientific and qualitative level of the IEEE IEMCON conference in the world.

However, the management of the conference knows well that there are many students around the world who for some reason are not able to attend this international conference. These reasons include: Students' low experience in writing a paper, the low age of students and the inability to travel to Canada to attend a conference, family restrictions, high travel costs to the host country, the problem of obtaining a visa. Therefore, managing the IEEE IEMCON conference in 2018 has decided to host a section called "IEEE Student papers" in order to keep students around the world up-to-date and to upgrade their CV to international level.

The IEEE IEMCON 2018 Conference is proud to be able to contribute to the worldwide presence of students from around the world by participating in this internationally recognized event, as well as contributing to raising the student's CV throughout the world. Students who are interested in submitting papers in this section can write papers based on the topics raised by the conference and send them.

Paper Categories:

- Regular Paper – 7 pages maximum (3 additional pages allowed but at an extra charge)
- Short Paper (Work-in-Progress) – 6 pages maximum (2 additional pages allowed but at an extra charge)
- Poster – 5 pages maximum

Also, for the welfare of students all over the world, an online workshop will hold on the following topics, and students attending this conference will be awarded an international degree at the IEEE IEMCON 2018 Conference. Topics of interest include, but are not limited to:

- 1- Biometrics (Human Recognition)
- 2- Medical Image Processing
- 3- Medical Signal Processing
- 4- Medical Sensors
- 5- Bioinformatics
- 5- Tele-medicine
- 6- Medical Robots

Paper Submission Info:

IEEE IEMCON uses EDAS for submission.

Authors need to:

1. Create an account (if not already registered) with EDAS at <http://edas.info>
2. Submission Link: <https://edas.info/newPaper.php?c=24576&track=92473>

Important Dates:

Full Paper Submission: 2nd September 2018
Acceptance Notification: 17th September 2018
Final Paper Submission: 25th September 2018
Presentation Submission: 20th October 2018
Conference: 1st- 3rd November 2018
