All accepted and presented papers will be submitted for publication in the IEEE Xplore® digital library

IEEE IEMCON 2021-Virtual Conference

27th-30th October 2021, Vancouver, Canada

The conference aims to bring together scholars from different disciplinary backgrounds to emphasize dissemination of ongoing research in the related fields of Information Technology and Communication. Research papers are invited describing original work in the above mentioned fields and related technologies. The conference will include a peer-reviewed program of technical sessions.

Topics and Technical areas of interest include but are not limited to the following:

Information Technology

- Business Intelligence and Applications
- Computer Network
- Evolutionary Computation and Algorithms
- Image Processing and Multimedia Technology
- Information Security
- Technique and Application of Database
- Data Mining
- Software Engineering
- Mobile Computing
- Distributed Systems
- Artificial Intelligence
- Visualization and Computer

Electronics

- VLSI and Microelectronic Circuit Embedded Systems
- System on Chip(SoC) Design
- FPGA (Field Programmable Gate Array)
- Design and Applications
- Electronic Instrumentations
- Electronic Power Converters and Inverters
- Control Theory and Applications
- Robotics and Autonomous Systems

Mobile Communication

- Ad hoc networks
- Body and personal area networks
- Cloud and virtual networks
- Cognitive radio networks
- Cooperative communications
- Delay tolerant networks
- Future wireless Internet
- Green wireless networks
- Local dependent networks
- Location management
- Mobile and wireless IP
